Stock and Modified classifications will be based on the GTOAA's Popular Vote Classing guidelines as described in their "The Legend" magazine, since the ***"Pontiacs on the Columbia"*** event is a GTOAA Western Regional Sanctioned Event.

The Stock class will contain cars that look essentially stock with factory type paint & interiors. Replacement Pontiac V-8's will be allowed and induction systems should match the year. Non-stock wheels (with the exception of Hurst wheels) are not allowed in the Stock class. Engine compartments should look stock.

The Modified class is designed for cars that exhibit the owner's originality & taste. Cars with custom paint, non-stock wheels & tires, extra chrome or headers are examples of car that would fall into the Modified class.

The Pontiac Significantly Modified for Appearance/Performance class is for a Pontiac that has been significantly altered for appearance (**Restomod**) or performance reasons. Performance modifications include but are not limited to; roll bars, blowers, narrowed rear-ends, slicks and/or extremely wide tires.

The Pontiac Project/Runner class includes any Pontiac that's a work in progress (has or is currently being worked on), and any running Pontiac, either of which the owner wishes to display at this ***"Pontiacs on the Columbia"*** event.
