TIGERS ON THE COLUMBIA – CAR CLASS INFORMATION

The 2019 *“Tigers on the Columbia”* show will consist of 26 different classes of car models that Pontiac manufactured from 1926 to 2010. These various classes will be further represented by categorizing each car by its characteristics as either stock or modified. 1st Place and 2nd Place awards will be recognized for each of these classes. In addition to regular class awards, a “Best In Show” will also be awarded.

Stock and Modified classifications will be based on the GTOAA’s Popular Vote Classing guidelines as described in their “The Legend” magazine, since the *“Tigers on the Columbia”* event is a GTOAA Western Regional Sanctioned Event.

The Stock class will contain cars that look essentially stock with factory type paint and interiors. Replacement Pontiac V-8’s will be allowed and induction systems should match the year. Non-stock wheels (with the exception of Hurst wheels) are not allowed in the Stock class. Engine compartments should look stock.

The Modified class is designed for cars that exhibit the owner’s originality and taste. Cars with custom paint, non-stock wheels & tires, extra chrome or headers are examples of car that would fall into the Modified class.

The Competition Modified class is for cars that obviously exhibit speed and performance type modifications. These kind of modifications include but are not limited to; roll bars, blowers, narrowed rear-ends, slicks and/or extremely wide tires.

The Pontiac Project Work in Progress class is for any Pontiac that is currently being worked on, has not been completed yet and the owner wishes to display it at this *“Tigers on the Columbia”* event.
